SUMMARY

Backend Engineer with 2 years of experience building scalable APIs with Python, FastAPI, and PostgreSQL. Comfortable across the backend stack, from database design to LLM integration and containerized deployment, with a strong foundation in writing clean, well-tested code.

SKILLS

Languages & Frameworks: Python, FastAPI
Libraries & ORMs: Pydantic, SQLAlchemy, Sentence Transformers
Database & Storage: PostgreSQL, AWS S3
APIs & Protocols: REST APIs, HTTP, WebSockets
AI & LLM Engineering: Agentic Workflows, LLM Integration (OpenAI, Gemini, Perplexity, Hugging Face), Prompt Engineering, Multilingual Models, Text Embeddings, Semantic Search
Deployment & Tools: Docker, AWS EC2, Git, Postman, Jira
Testing: pytest, MagicMock, Unit Testing

EXPERIENCE

Backend Developer (Contract), SRYTAL Systems India Pvt. Ltd. *Jun 2026 – Present*
Hyderabad, India (Remote)

- Built REST APIs for interactive questionnaire management and PDF/Doc report generation within an agentic AI platform for startup idea validation, using FastAPI and PostgreSQL.
- Wrote unit tests achieving 90% coverage across contributed modules with pytest, in an AI-assisted development workflow.

Software Engineer, Prodify Software Solutions LLP *Aug 2024 – Mar 2026*
Visakhapatnam, India (Onsite)

- Developed scalable RESTful APIs with FastAPI using the Controller-Service-Repository pattern, processing 1,000+ Excel and PDF financial records per upload.
- Engineered an LLM-powered transaction categorization system with optimized batch processing to categorize and analyze 1,200+ financial transactions.
- Designed and normalized PostgreSQL schemas across 20+ tables with optimized indexing; secured asynchronous file uploads via AWS S3 presigned URLs.
- Collaborated in an Agile environment using Jira for sprint planning; maintained OpenAPI/Swagger specifications for clear API contracts.

PROJECTS

AI-Powered Startup Validation & Mentorship Platform | axiora-pulse
Built backend APIs and AI-driven report generation for an agentic startup-idea validation platform that runs AI agents to analyze founders' ideas and generate detailed evaluation reports.

Financial Data Management Platform
Aggregated financial records from multiple sources, automated transaction categorization, and generated AI-powered insights for budgeting, net worth analysis, and forecasting.

AI-Powered Chat Moderator System | ai-moderator
Built a real-time, research-driven chat moderator where admins define study objectives and AI instructions, and users interact via text, image, or voice.

Text Embedding and Semantic Analysis Tool | text-analysis
Built a pipeline that embeds user-uploaded comments across topics, clusters them, and visualizes results in an interactive 3D space with filtering by user attributes.

EDUCATION

B.Tech in Electronics and Communication Engineering 2021 – 2024 | CGPA: 8.13
Gayatri Vidya Parishad College of Engineering for Women

Diploma in Electronics and Communication Engineering 2018 – 2021 | CGPA: 8.9
Government Polytechnic for Women, Bheemunipatnam

CERTIFICATIONS

Google Data Analytics (Coursera) | Prompt Engineering (AWS Skill Builder)
